AUTHORIZED TOOL

WARRANTY & SERVICE CENTER

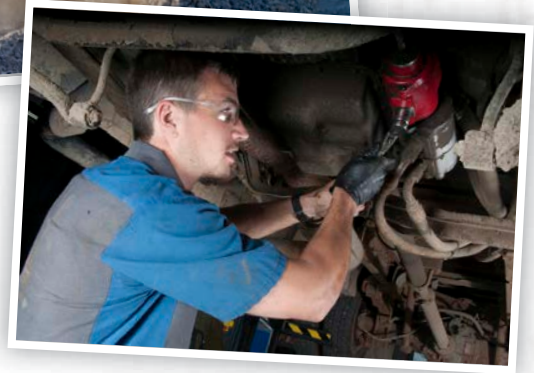

DFP has your back when tools go down. We are your authorized service and repair center for both Stanley Tools and Portaco Tools. Minimize downtime with our fast turn-around and expert hydraulic service technicians, while having peace of mind that we offer competitive prices on all tool repairs.

Mobile Rail Equipment Repair

Each Dakota Fluid Power facility is fully equipped to provide complete mobile equipment repair for customers that do not have the time or facility to accomplish this work. Whether planned maintenance or an unforeseen breakdown, our certified hydraulic technicians are on the job day or night to make sure downtime is kept to a minimum. With stock of PTOs, pumps, components, and plumbing materials, we provide prompt and professional service. We are a one-of-a-kind, one-stop shop for services including:

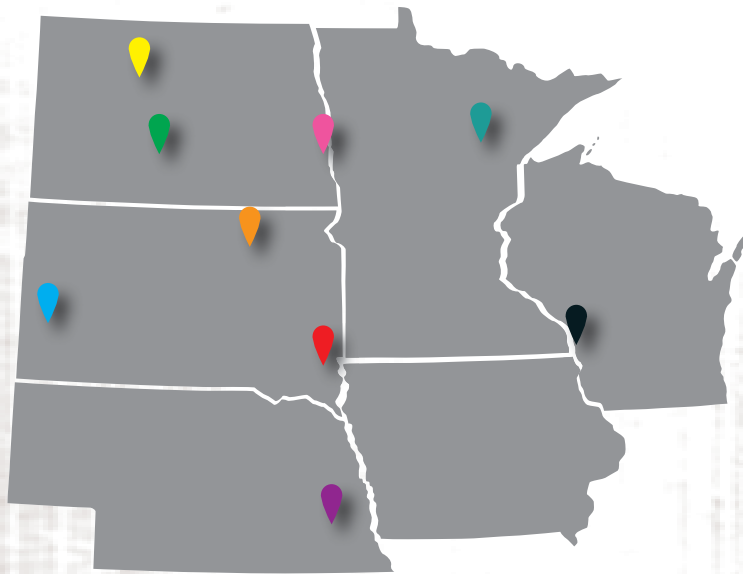

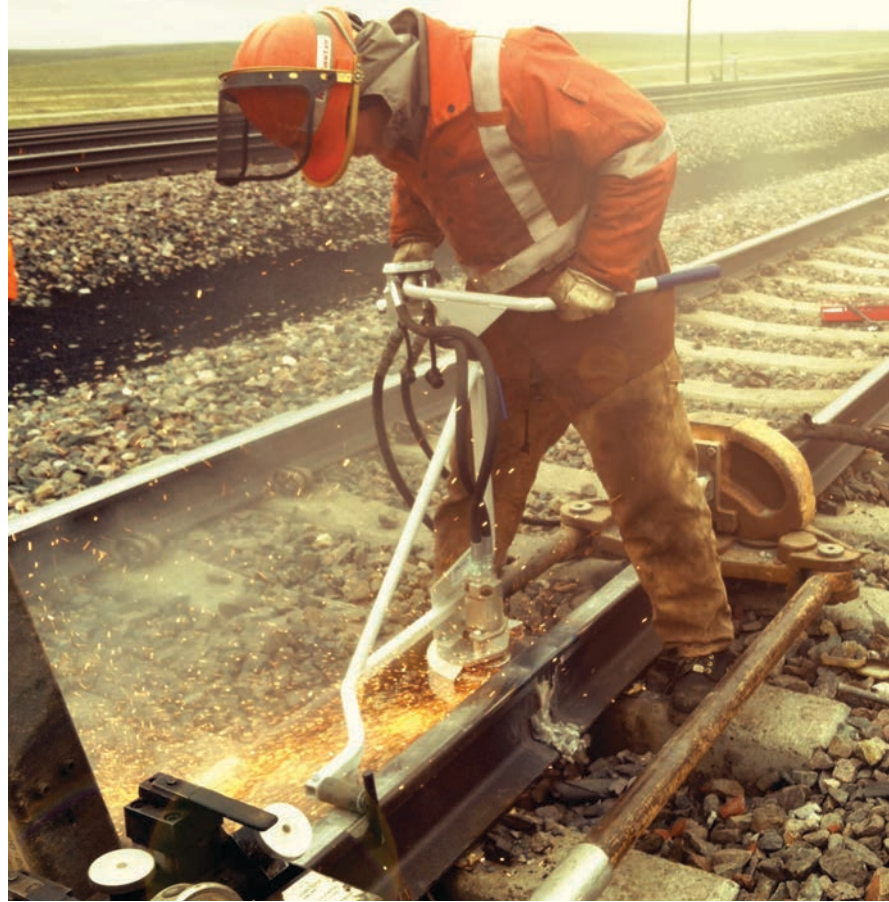

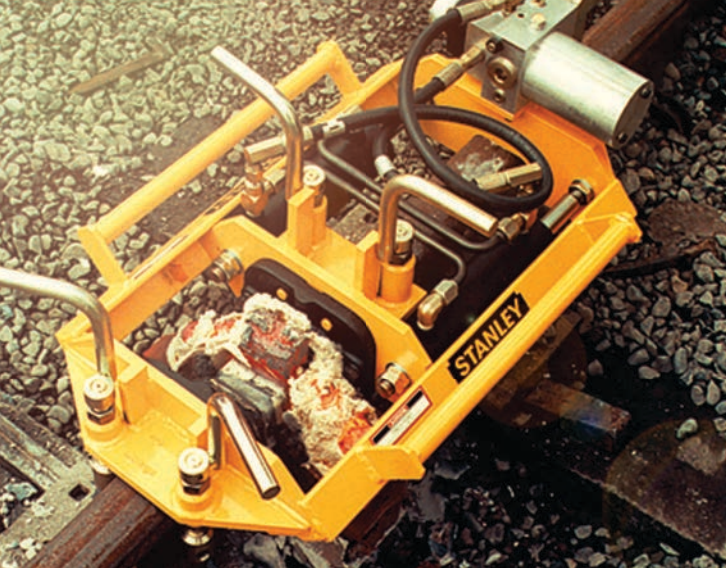

- Component Removal, Repair & Re-installation (pumps, motors & valves)
- Cylinder Repair & Manufacturing
- Wet Kit Installation
- Fluid Line Repair & Plumbing
- Complete Machine Overhaul
- Preventative Maintenance
- Field Service

Vehicle Inspections:

The safety and reliability of your equipment is always a high priority. That's why, at Dakota Fluid Power, we have certified inspectors for hi-rail, crane and DOT equipment. Dakota Fluid Power offers preventative maintenance programs, quarterly, bi-annually and annually to suit your requirements. Our inspections include:

- Hi-Rail Vehicle Inspections
- Crane Inspections
- Rail Trucks
- DOT Equipment Inspections
- Safety Kits

WE ASK THE RIGHT QUESTIONS:

- How can we help?
- Why does a component need to be replaced/repaired or why did the unit fail?

It is our job to focus on the root of the cause to determine the best solution. We won't just give you a bandage for the problem; we want to come up with a long term solution. We will look at the system as a whole and determine what needs repair, while also identifying any alternative that may improve functionality or efficiency.
