Single Stage Hydraulic Cylinder

2 Stage Hydraulic Cylinder

Clutch Pump

Self-contained Power Unit

Soil testing is the best tool available to Agricultural Producers for determining the amount of nutrients needed for the next crop year.

Taking soil samples has never been faster or easier than with the Soil Probe X250.

Eliminate the need to get out of your vehicle for sampling, don't hassle with changing weather conditions, and cut your sampling time dramatically, saving you time and money.

*DFP has offered excellent product quality, competitive pricing, and outstanding service. Dakota Fluid Power is fully prepared to design and supply the optimum hydraulic solution for you, available when you need it, to fulfill your particular application or need.*
