MEASURE. MONITOR. CONTROL.

AIR COMPRESSOR INSIGHT

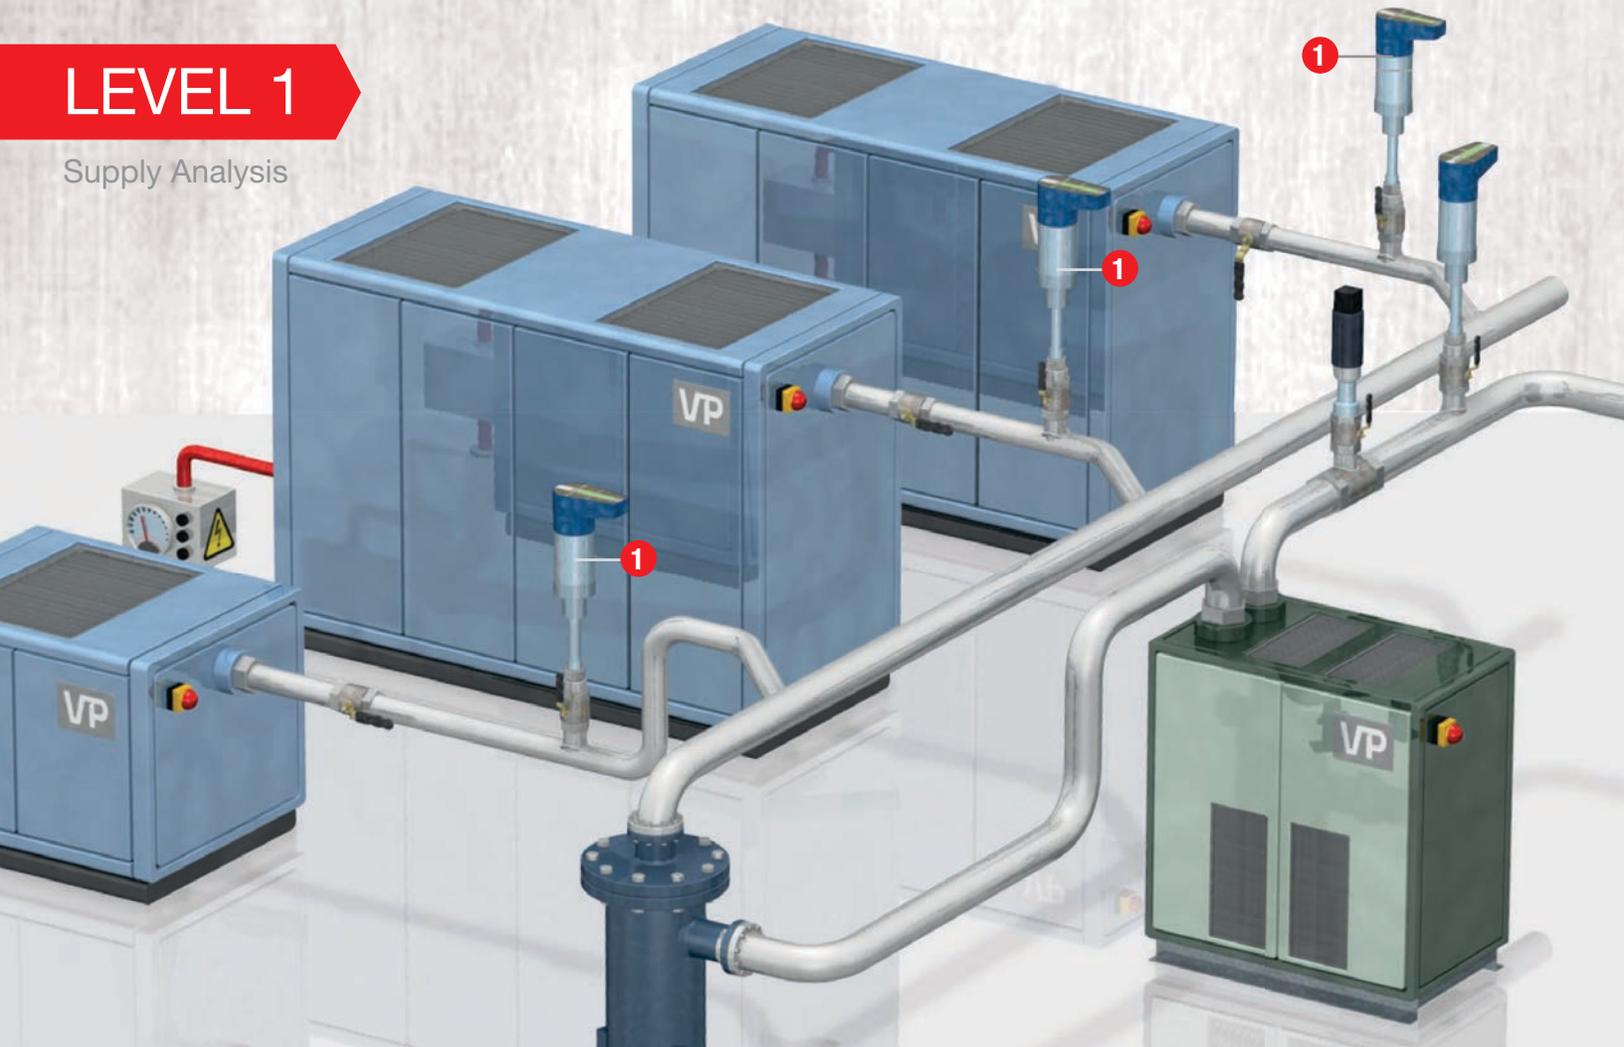

LEVEL ONE: SUPPLY SIDE INSIGHT REPORT

How efficient is your compressor? Let our trained staff analyze where your compressor is efficient and where your compressor could use some improvements. By better understanding your compressor, better decisions can be made to help cut down on system failure and down-time which in return can help save you money and increase the life of your compressor. Our Level One Supply Side Insight Report includes:

- Pressure Efficiency
- Temperature Efficiency
- Flow Efficiency
- Power Efficiency
- Dew Point Efficiency

LEVEL 1

Supply Analysis

AIR SYSTEM INSIGHT

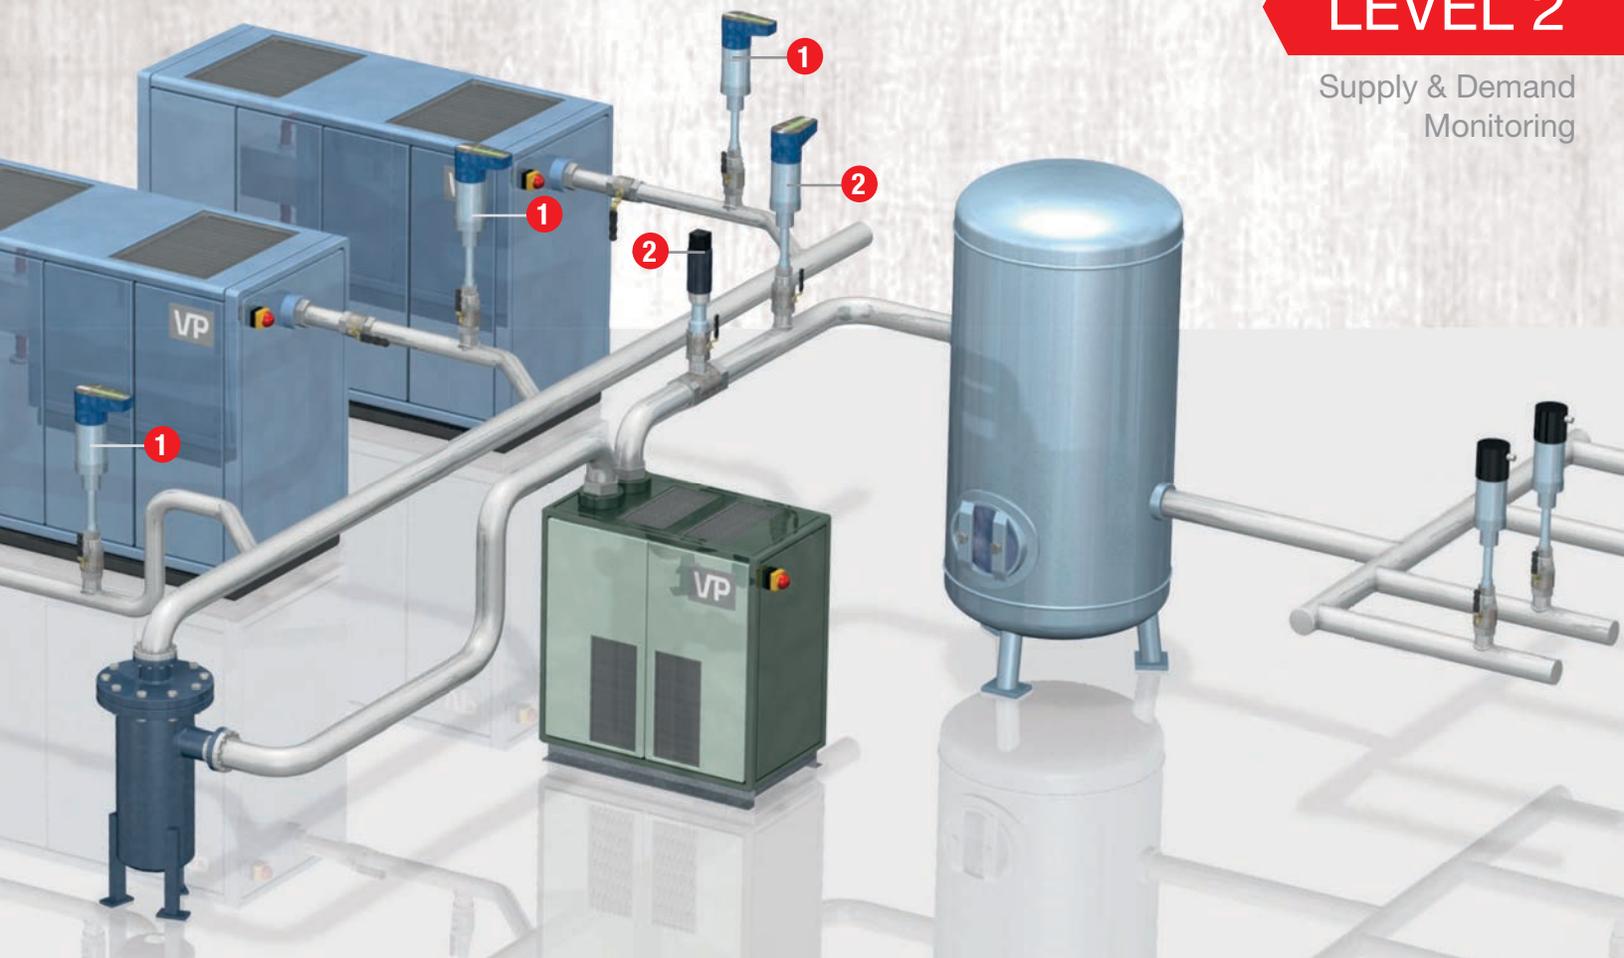

LEVEL TWO: SUPPLY & DEMAND INSIGHT REPORT

At Dakota Fluid Power, we understand that the efficiency of your entire air system is just as important as the efficiency of your compressor. Our trained staff will analyze the efficiency of your entire air system and illustrate where your air system can improve. The DFP Level Two Supply & Demand Insight Report includes:

- Pressure Efficiency
- Temperature Efficiency
- Flow Efficiency
- Power Efficiency
- Dewpoint Efficiency

LEVEL 2

Supply & Demand
Monitoring

REAL-TIME DATA INSIGHT

LEVEL THREE: PERMANENT/ON PREMISE INSIGHT

Wouldn't it be amazing if you could **MEASURE** system data, **MONITOR** your compressed air system health, and **CONTROL** the efficiency of your system in REAL-TIME? With Dakota Fluid Power's Level Three Permanent/On Premise Insight, you get all of that information in real-time directly to your computer. Run reports at your convenience! Our Level Three Insight includes:

- Data Collection
- Installation of System "Vision Dashboard"
- Monitor Machine Health and Operational Trends
- Provide Critical Alerts for System Failures
- Plot a Course of System Efficiency and Optimization
