

AIR PANEL

Organizes & Protects!

The EPG Air Panel is a heavy duty carbon steel construction that's great for protecting and organizing your air, electrical or hydraulic hoses and lines. With it's convenient placement of hoses and plugs, our Air Panel unit increases the longevity of your hoses and saves time by keeping your lines organized. Not only is the Air Panel's design heavy duty and durable, it is hinged for easy service ability. This unit works great with all of our truck product kits.
